## OPENING CEREMONY - SCOUTING

**Props -** Six scouts with various tools and one adult.

**Cub 1 -** (carrying a hammer) In Cub Scouting we learn to build character.

**Cub 2 -** (carrying a plank) It isn't what the boy does to the wood, but rather what the wood does for the boy.

**Cub 3 -** (carrying a plane) Through Cub Scouting we learn to remove the sharp edges from ourselves.

**Cub 4 -** (carrying sandpaper) As we grow in Cub Scouting, we become more refined and smooth in our manners.

**Cub 5 -** (carrying a tool chest) Our talents are gathered together, and we get a chance to try them out when our den works on themes each month.

**Cub 6 -** (walking with an adult) Our parents help us to learn how to use the tools of life when they help us do our achievements.

**ALL -** Now it's time to use another tool. Please stand for the Pledge of Allegiance and salute our flag.

## OPENING PRAYER - HOPE

Dear Lord, we hope to build up our Cub Scouts just as we show them how to build things in our world. May we maintain the same positive attitude we want our Cub Scouts to have. May they be reminded of the wonder and beauty of the creation around them as they do their best to create their projects. Amen

## NAIL DRIVING RELAY

**MATERIALS -** 2 X 4's , as many teams as you want, Large roofing nails, Hammers, Safety glasses

Set-up the 2 x 4's at the far side of the room. Put the safety glasses, hammer, and nails next to them. Divide players into teams, line them up. On a signal the first in line runs to their 2 x 4, puts on the safety glasses and hammers the nail into the wood within a 1/4 of the head. When done, player puts down hammer, takes off glasses, and runs back to tag the next player in line. When the team is done, it jumps up and down and yells "we're finished".

## CUBSTRUCTION RECOGNITION AWARDS

**MATERIALS -** Small wooden plaques, toy tools or tools, carpenters glue, sandpaper, magic marker.

Sand plaques until smooth. Decide on different types of recognition such as hammer(for building character), sandpaper (for smoothing out the pack program), a level (for creating equal fun), pliers (for tweaking the program), nails (for nailing down the guest speakers), wrench (for tightening up the budget), etc. After gluing the tool onto the plaque, use the marker to write your message.

## CUBSTRUCTION CHANT

Hammer, saw, nail -- put us to the test.
You'll never fail when you do your best!
