

Forests Forever!

The Three River Parks District will be planting and landscaping an area of the Elm Creek Park Reserve on:

November 11, 2006 from 9:30 A.M. – whenever

This area is able to be planted due in large part to donations collected through the

Northern Lights District Summer Day Camps!

This is a FREE event open to everyone!

Everyone that attends will be able to participate as little or as much as they want.

The Park District will supply all the tools, trees, shrubs, and instructions.

Participants need only dress for the weather.

Sturdy shoes, gloves, hats, and rubber boots are suggested.

This is a great OUTDOOR activity for dens, packs, troops, and families. All are welcome to come and be a part of history. The area will be mapped using GPS technology so future Scouts and family members will always be able to find and appreciate the trees and landscaping that benefited from your involvement with the program.

There will be naturalists, arborists, and horticulturalists available to demonstrate activities and answer any questions.

A limited number of patches will be available on a **first come/first patched** basis

A map and a list of achievements that can be accomplished by attending and participating in this activity can be found on the back of this flyer.

No pre-registration necessary.

Additional information can be found at nlroundtable@hotmail.com or by calling Tom Jahnke at the Three River Park District 763-694-7843

Tigers
Achievement #5g (if you take a hike)
Elective #30
