

DAN PATCH DISTRICT

Boy Scout Career Day at Donaldson Company in Bloomington

Here is a unique opportunity to learn and earn a variety of vocational merit badges such as engineering, drafting, pulp and paper, electronics, salesmanship and law from experts in these fields at Donaldson Company, a Fortune 1000 global manufacturing company headquartered on Bloomington, Minnesota. This is a hands-on “merit badge madness” event sponsored by Donaldson and taking place at the Donaldson headquarters, where scouts will have the opportunity to learn at actual laboratories, workroom and offices where these trades are practiced every day. Earn one or two merit badges in a small group setting — register now as classes are limited to ten scouts per merit badge.

On-line registration: <http://dpcareerday.eventbrite.com>
