

## Commissioner Bulletin

# Training Record Audits

As your Roundtable host, I want to announce a new feature being added to the monthly Northern Lights District Roundtables. Beginning in September, the District Committee and the Commissioner Corps will jointly offer individual ***Training Record Audits***. Committee chairs, unit leaders, and unit trainers will be able bring training completion certificates for their adult leaders and volunteers to Roundtables and have them entered directly into ScoutNet.

It is my goal to eliminate the administrative delays inherent in turning training records in to the Council office; to bolster the accuracy of training reports derived from either the Unit Tools Box or from MyScouting.org; and help reduce the frustration we all feel over continually submitting changes that never seem to get updated. Individual Scouters will be able to review their training records, and update them as appropriate. Unfortunately we will not have the ability to print reports.

Scout leaders will need to bring a copy of their training certificates to turn in at the time of the audit. These hard copies will be submitted to the Council office by our District Executive in support of our field audits. No updates will be entered without supporting documentation.
